==== RESTART: C:/Users/info/OneDrive/Documents/T080_lpract_CyberSecurity.py ====
Enter Message: Nish
Enter Shift Key: 3
Encrypted Message: Qlvk
Decrypted Message: Nish
>>>
```

2. Design and implement algorithms to encrypt and decrypt messages using classical substitution techniques - GUI OUTPUT

Encrypt:

Caesar Cipher Encryption & Decryption

Enter Message:

Nish

Shift Key:

3

Encrypt Decrypt Clear

Result:

Qlvk

SHETH LUJ AND SIR MV COLLEGE

Decrypt:

The screenshot shows a web browser window with the title '080 Caesar Cipher'. The page has a light blue background and contains the following elements:

- Caesar Cipher Encryption & Decryption** (Title)
- Enter Message:** A text input field containing 'Nish'.
- Shift Key:** A text input field containing '3'.
- Buttons:** Three green buttons labeled 'Encrypt', 'Decrypt', and 'Clear'.
- Result:** A text output field containing 'Kfpe'.

3. Design and implement algorithms to encrypt and decrypt messages using transposition techniques - CLI Output

```
*IDLE Shell 3.14.6*
File Edit Shell Debug Options Window Help
Python 3.14.6 (tags/v3.14.6:c63aec6, Jun 10 2026, 10:26:10) [MSC v.1944 64 bit (AMD64)] on win32
Enter "help" below or click "Help" above for more information.
>>>
==== RESTART: C:/Users/info/OneDrive/Documents/T080_lpract_CyberSecurity.py ====
>>> Enter Message: Nishhh
>>> Enter Number of Rails: 2
>>> Encrypted Message: Nshihh

>>> |
Ln: 9 Col: 0
```

4. Design and implement algorithms to encrypt and decrypt messages using transposition techniques - GUI Output

SHETH LUJ AND SIR MV COLLEGE

Encrypt:

The screenshot shows a window titled "080 Rail Fence Cipher". The main heading is "Rail Fence Cipher Encryption & Decryption". Under the "Enter Message" section, the text "Nishhh" is entered. The "Number of Rails" is set to "2". Below these inputs are three buttons: "Encrypt", "Decrypt", and "Clear". The "Result" section shows the output "Nshihh".

Decrypt:

The screenshot shows the same application window. The "Enter Message" section still contains "Nishhh". The "Number of Rails" is still "2". The "Decrypt" button is highlighted, indicating it has been clicked. The "Result" section now shows the decrypted text "Nihsh".
